

# When the work is high stakes, we're here.

SEACHANGE

SeaChange delivers trusted execution for essential, regulated, and results-driven communications. When deadlines are real, accuracy matters, and pressure is high, organizations rely on SeaChange to deliver communications that must be right the first time.

We support teams across healthcare, manufacturing, financial services, education, utilities, business services, and the public sector. In each of these environments, communication is not optional or experimental. It is operational, time-sensitive, and often regulated. That is where SeaChange shows up.

## Built for moments where execution cannot slip.

Organizations choose SeaChange because we combine disciplined execution, modern technology, and deep industry experience under one roof to help teams move forward with confidence.

## What makes SeaChange different

### One partner, end to end

Print, digital, direct mail, promo, packaging, kitting, warehousing, and fulfillment working together seamlessly.

### Execution you can trust

Proven processes ensure every piece, every shipment, and every deadline is delivered with accuracy.

### Relief for your team

We take complexity off your plate so your people can focus on what matters most.

### Security built in

HIPAA, HITRUST, and SOC 2 certified. Designed for regulated and high-risk environments.

### Purpose-driven work

Trusted communication drives progress. It guides how we operate and serve our clients.

## One platform. Total visibility. Confident execution.

GATHER brings together technology, workflows, and production so essential communications can be seen, managed, automated, and delivered with confidence.

## Store

Centralize print, promo, apparel, variable collateral, digital assets, inventory, and fulfillment through a brand-aligned and secure digital storefront.

## Campaign

Execute coordinated cross-channel campaigns with creative, print, digital, direct mail, and fulfillment aligned in one workflow.

## Flow

Automate and deliver regulated communications with rapid file-to-mail processing and tiered SLA handling built for minutes, not days.

# Trusted to execute

We send millions of secure, compliant communications accurately each week

We develop and manage hundreds of custom dashboards and storefronts powering complex workflows

We have 150,000 square feet of production, warehouse and fulfillment capacity

We are the largest WBENC-certified, women-owned printer in the United States, while also qualifying as a small business

## A history of showing up

Founded in 2014, SeaChange was built on the belief that organizations deserve a partner who delivers with care, consistency, and precision. What began as a modern print company has grown into a trusted execution partner for multichannel campaigns, secure communications, warehousing, and fulfillment.

Today, SeaChange supports organizations across regulated and high-stakes industries with the rigor, scale, and accountability required to deliver communications that matter.

**We're here to help organizations move forward through trusted communication.**
